## Residential Telephone Lines

### **New phone line installation**

Direct Save Telecom can install new telephone lines and services. We will arrange and manage the whole installation for you. A new telephone line installation now costs just £29.95 and this is payable prior to the telephone line being installed. When the new telephone line has been installed we will then invoice you for your chosen call plan for the first partial month plus the next whole calendar month, thereafter you will be invoiced monthly. Your monthly telephone bill is usually generated on the 7th of each month.

To order your new telephone line simply sign up online or call our UK customer services on 0800 027 3930. The £29.95 offer\* is subject to a 18 month Minimum Period, please see terms and conditions on our website for full details. Our standard 28 day agreement new telephone line installation price is £118.00 (BT™ normally charge £140.00).

### **If you already have a phone line but it just needs reactivating**

Just moved in and need a phone line reactivating? We will reactivate an existing phone line for FREE plus save you money on line rental and call rates when you sign up to a 18 month agreement to Direct Save Telecom.

Direct Save Telecom can activate any phone line and services. We will arrange and manage the whole process for you for FREE, you will pay a £50 security payment and this is then credited in full to your first bill from us. The phone line will be activated on a chosen date or usually the next working day. We will invoice you for your chosen call plan for the first partial month plus the next whole calendar month, thereafter you will be invoiced monthly. Your monthly telephone bill is generated on the 7th of each month.

To arrange for your phone line to be activated simply call 0800 027 3930 Monday to Friday (9am to 5pm) so that one of our UK based advisors can check the availability of a phone line at the premises. They will then complete your phone activation order over the telephone and you'll be asked to pay only for the advance call plan and line rental - the phone line is activated for FREE. This offer is subject to a 18 month Minimum Period, please see terms and conditions for full details.

We can activate a phone line anywhere in the UK. It typically takes 24 hours to reactivate a phone line from the time that you place your order (for next day activation orders must be placed by 4.30pm Monday to Friday).

# Call & Service Charging Policy

## Calling Periods

Most call types vary according to the day and the time the call is made

Day = Monday to Friday 7am to 7pm

Evening = Monday to Friday 7pm to 7am

Weekend = midnight Friday to midnight Sunday

## Call Set Up Fees

A call set up fee of 22p is charged in addition to any pence per minute rate.

## Call Duration and Call Charge Rounding Up

All calls are rounded up to the next whole minute. All calls are rounded up to the next whole penny.

## Free Calls Fair Usage Policy

The Calling Plan free calls are up to 60 minutes duration per call and our fair use policy applies - maximum 1,500 minutes or 300 calls a month (excludes indirect access numbers and dial-up internet access) per telephone line. If either of these limits is exceeded, Direct Save Telecom will charge for these calls until further notice (Calls to 01, 02 and 03 as applicable to call plan type). Any calls exceeding 60 minutes will be chargeable in full, simply hang up and redial before 60 minutes is exceeded to avoid being charged.

## Paper Bill Fee

Online billing is free of charge. Paper bills are chargeable at £2.00 on each occasion (including postage).

## Large Print

On request we will produce bills on A3 paper in large print. We do not charge extra for this service.

## Service Numbers

Since 1 July 2015, the regulator Ofcom changed the way calls to numbers starting 08, 09 and 118 are charged. These numbers are known as service numbers. 080 calls are free to call. The cost of calling any of these numbers (084, 087, 09 and 118) is now split into two parts:

The Access Charge: This is what we charge you, per minute, for connecting the call. This charge is 30 pence per minute.

The Service Charge: This is the rest of the call charge. The organisation you are calling will tell you how much this is.

Adding the above two charges will give you the exact cost of your call.

## Failed Payment Fee

For failed payments we charge a payment failure fee to your account of £11.95 but if you subsequently make a successful repayment within seven days we will reverse the payment failure fee.

## Value Added Tax

All figures included VAT.

## Residential Home Phone Line Rental
